Date: 10/24/12

General Provisions (City Construction and Maintenance Permit)

1. The City shall notify the following Department representative, in writing, at least 23 (52) calendar days in advance of commencing Construction or Maintenance work within state-owned limited access highway right of way.

Department Representative:

Name: Jennifer Lopez

Title: Singer

Address: Hollywood Hills

California

Phone Number: 000-000-0000

2. Upon authorization of this Construction and Maintenance Permit, the City shall diligently proceed with the work and comply with all provisions herein.

3. Prior to the beginning of construction, a preconstruction conference shall be held at which the Department, the City, and the City's contractor (if applicable) shall be present.

4. Should the City choose to perform the work outlined herein with other than its own forces, a representative of the City shall be present on-site at all times unless otherwise agreed to by the Department. All contact between the Department and the City's contractor shall be through an authorized representative of the City. Where the City chooses to perform the work with its own forces, it may elect to appoint one of its own employees engaged in the construction as its representative. Failure to comply with this provision shall be grounds for restricting any further work by the City within the state-owned limited access highway right of way until said requirement is met. The City, at its own expense, shall adequately police and supervise all work on the above-described project by itself, its contractor, subcontractor, or agent, and others, so as not to endanger or injure any person or property.

5. All City facilities occupying state-owned limited access highway right of way shall comply with applicable minimum clearance, depth, encasement and Control Zone requirements as specified in the Washington State Department of Transportation Utilities Manual M 22-87, and revisions thereto.

6. Should the City choose to perform the work outlined herein with other than its own forces, a surety bond in the amount of \$ 20,000 written by a surety company authorized to do business in the State of Washington, shall be furnished to the Department before performing any work to ensure compliance with all of the terms and conditions of this Construction and Maintenance Permit and shall remain in force until all work under this Construction and Maintenance Permit has been completed, and the City's contractor has restored any affected Department property and right of way to the satisfaction of the Department.

7. The City must provide proof of the following insurance coverage prior to performing any work within right of way:

- a) Commercial General Liability covering the risks of bodily injury (including death), property damage and personal injury, including coverage for contractual liability, with a limit of not less than \$1 million per occurrence/\$2 million general aggregate;
- b) Business Automobile Liability (owned, hired, or non-owned) covering the risks of bodily injury (including death) and property damage, including coverage for contractual liability, with a limit of not less than \$1 million per accident;
- c) Employers Liability insurance covering the risks of City's employees' bodily injury by accident or disease with limits of not less than \$1 million per accident for bodily injury by accident and \$1 million per employee for bodily injury by disease;

Such insurance policies or related certificates of insurance shall name the Washington State Department of Transportation as an additional insured on all general liability, automobile liability, employers' liability, and excess policies. The City may comply with these insurance requirements through a program of self insurance that meets or exceeds these minimum limits. The City must provide the Department with adequate documentation of self insurance prior to performing any work within state-owned limited access highway right of way. Should the City no longer benefit from a program of self-insurance, the City agrees to promptly obtain insurance as provided above. A forty-five (45) Calendar Day written notice shall be given to prior to termination of or any material change to the policy(ies) as it relates to this Permit.

8. Work within the state-owned limited access highway right of way shall be restricted between the hours of 8:00 and 10:00, and no work shall be allowed on the right of way on Saturday, Sunday, or holidays as defined by RCW 1.16.050, or the day before a holiday or a holiday weekend, unless authorized by the Department.

9. All of the work shall be done to the satisfaction of the Department. All material and workmanship shall conform to the Washington State Department of Transportation's Standard Specifications for Road, Bridge, and Municipal Construction, current edition, and amendments thereto, and shall be subject to inspection by the Department. All Department inspections and acceptance of state-

owned limited access right of way restoration are solely for the benefit of the Department and not for the benefit of the City, the City's contractor (if any), or any third party.

10. During the construction and/or maintenance of this facility, the City shall comply with the Manual on Uniform Traffic Control Devices for Streets and Highways (Federal Highway Administration) and the state of Washington's modifications thereto (chapter 468-95 WAC). If determined necessary by the Department, the City shall submit a signing and traffic control plan to the Department's Representative for approval prior to construction or maintenance operations. No lane closures shall be allowed except as approved by the Department's Representative. Approvals may cause revision of special provisions of this Construction and Maintenance Permit, including hours of operation.

11. No excavation shall be made or obstacle placed within the limits of the state-owned limited access highway right of way in such a manner as to interfere with the construction of, operation of, maintenance of and/or travel over the highway, unless authorized by the Department in writing.

12. If the work done under this Construction and Maintenance Permit interferes in any way with the drainage of the state highway, the City shall wholly and at its own expense make such provisions as the Department may direct to fully mitigate the drainage impacts.

13. For any of the City's work that requires permit coverage under the "CONSTRUCTION STORMWATER GENERAL PERMIT – National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Stormwater Discharges Associated with Construction Activity" (hereinafter "Construction Stormwater General Permit"), the City shall obtain said permit coverage and shall comply with all requirements of the Construction Stormwater General Permit. Upon Department request, the City shall provide a copy of the Construction Stormwater General Permit. In addition, the City, on behalf of itself and its contractors, officers, officials, employees, and agents, agrees to indemnify, hold harmless, and defend at its sole cost and expense the Department, its officers, officials, employees, and agents from any and all fines, costs, claims, judgments, and/or awards of damages (to regulatory agencies, persons, and/or property), arising out of, or in any way resulting from the City's failure to (1) obtain coverage under the Construction Stormwater General Permit for utility work or (2) comply with the Construction Stormwater General Permit requirements.

14. Upon completion of the work authorized by this Construction and Maintenance Permit, all rubbish and debris shall be immediately removed and the state-owned limited access highway right of way shall be left neat and presentable to the Department's satisfaction. City agrees to take corrective action if directed by the Department.

15. If any construction or future maintenance of the facilities covered under this Construction and Maintenance Permit involves equipment or personnel crossing limited access boundaries at grade, the City shall secure an access break from the Department prior to commencement of construction or maintenance activities.

16. All facilities placed within state-owned limited access highway right of way by the City under this Construction and Maintenance Permit shall remain the property of the City and may be removed at any time by the City. Prior to removal, the City shall notify the Department and submit a plan for removal of the facilities. Additionally, in the event that all or any portion of the facilities are no longer used, the City shall submit a plan and schedule removal of the facilities. Upon removal of any facilities under this section, the City shall restore any affected Department property or state-owned limited access highway right of way to a condition satisfactory to the Department.

17. If the Department, in its sole discretion, shall determine that any or all of the City's facilities must be modified, removed or relocated from the state-owned limited access highway right of way as being necessary, incidental, or convenient for the construction, repair, improvement, alteration, relocation, or maintenance of the state highway, or for the safety of the traveling public, the City, its successors or assigns, shall at its sole cost and expense, upon written notice by the Department, modify, relocate or remove any or all of its facilities from the state-owned limited access highway right of way as may be required by the Department. The City shall timely perform all facility modifications, relocations and/or removals as the Department directs to avoid highway project delays and in such manner as will cause the least interference with the continued operation and/or maintenance of the highway or disruption of traffic.

18. Should the City fail or refuse to comply with the Department's direction to modify, remove, or relocate any City facilities, the Department may undertake and perform the work, and the City agrees to pay the Department's reasonable cost and expense for performing the work. The Department shall provide to the City a detailed invoice for the work, and the City agrees to make payment within thirty (30) calendar days of the date of the invoice.

19. If the Department determines in good faith that emergency maintenance work to the City's facilities is immediately needed to protect (a) any aspect of the state highway, or (b) to secure the safety of the traveling public, as a result of a failure of the City's facility, such work may be performed by the Department without prior approval of the City, and the City agrees to pay the Department's reasonable cost and expense for performing the work. The City will be notified of the emergency work and the necessity for it at the Department's earliest opportunity. The Department shall provide to the City a detailed invoice for such emergency work, and the City agrees to make payment within thirty (30) calendar days of the date of the invoice.

20. The City, its successors and assigns, agree to indemnify, defend, and hold harmless the State of Washington and its officers and employees, from all claims, demands, damages (both to persons and/or property), expenses, regulatory fines, and/or suits that: (1) arise out of or are incident to any acts or omissions by the City, its agents, contractors, and/or employees, in the use of the

state-owned limited access highway right of way as authorized by the terms of this Construction and Maintenance Permit, or (2) are caused by the breach of any of the conditions of this Construction and Maintenance Permit by the City, its contractors, agents, and/or employees. The City, its successors and assigns, shall not be required to indemnify, defend, or hold harmless the State of Washington and its officers and employees, if the claim, suit, or action for damages (both to persons and/or property) is caused by the acts or omissions of the State of Washington, its officers and employees ; provided that, if such claims, suits, or actions result from the concurrent negligence of (a) the State of Washington, its officers and employees and (b) the City, its agents, contractors, and/or employees, or involves those actions covered by RCW 4.24.115, the indemnity provisions provided herein shall be valid and enforceable only to the extent of the acts or omissions of the State of Washington, its officers and employees and the City, its agents, contractors, and/or employees.

20.1. The City agrees that its obligations under this section extend to any claim, demand and/or cause of action brought by, or on behalf of, any of its employees or agents while performing construction and/or maintenance under this Construction and Maintenance Permit while located on state-owned limited access highway right of way. For this purpose, the City, by mutual negotiation, hereby waives with respect to the Department only, any immunity that would otherwise be available to it against such claims under the Industrial Insurance provisions chapter 51.12 RCW.

20.2 This indemnification and/or waiver shall survive the termination of this AGREEMENT.

21. Any action for damages against the State of Washington, its agents, contractors, or employees, arising out of damages to a utility or other facility located on the state-owned limited access highway right of way shall be subject to the provisions and limitations of RCW 47.44.150.

22. This Construction and Maintenance Permit shall not be deemed or held to be an exclusive one and shall not prohibit the Department from granting rights of like or other nature to other public or private utilities, nor shall it prevent the Department from using any of its highways, rights of ways, or other state-owned property, or affect its right to full supervision and control over all or any state-owned property, none of which is hereby surrendered.

23. No assignment or transfer of this Construction and Maintenance Permit in any manner whatsoever shall be valid, nor vest any rights hereby granted, until the Department consents thereto and the assignee accepts all terms of this Construction and Maintenance Permit. Attempting to assign this permit without Department consent shall be cause for cancellation as herein provided.
